

Win a Fresha Trough

Fresha Trough, manufactured by natural water treatment specialists Aquamidas, is the first ever self-cleaning trough designed especially for farm animals. NFU Countryside has one to give away worth £199!

Holding 250 litres and pre-treated with an antimicrobial coating comprising silver and active metals, the trough has been tested in independent trials, the results revealing an '...important decrease of all bacteria tested in contact with the product'.

It is hoped that this new technology will not only save time for busy farmers and smallholders, but will also reduce the numbers of illnesses occurring in field-based animals.

The Fresha Trough is guaranteed to stay completely algae-free, being double skinned for insulation and having smooth corners to prevent chafing. It is available from www.aquamidas.com, priced at £199 and comes with a two-year money back guarantee. NFU Countryside members can receive a 10% discount by quoting NFU10 at the checkout.

Win a stay at the luxury Fawsley Hall

Situated in the heart of rolling countryside, the 4 AA Red Star and 3 AA Rosette Fawsley Hall is the ideal destination to explore Northamptonshire and Oxfordshire.

Fawsley Hall has recently opened the award-winning Grayshott Studio Spa. This wonderful addition brings an enhanced level of luxury to the hotel. The Tudor and Victorian pedigree of Fawsley Hall is reflected in all of the classical modern bedrooms. Each of the hotel's 58 bedrooms enjoys its own unique ambience.

For more information, please visit www.fawsleyhall.com or call 01327 892000.

We have a fabulous prize to give away to one lucky member of an overnight stay for two, dinner and breakfast served in Bess's Brasserie and VIP vouchers for Bicester Village.

To be in with a chance to win, answer the question below and send your answer and details to the address on page 46.

How many bedrooms does Fawsley Hall have?

Terms and conditions: Bookings are strictly subject to availability, do not include bank holidays, and must be taken by March 31, 2011.

A flaming good reader offer

In conjunction with Green Dragon Farm Grown Fuel we are delighted to offer NFU Countryside members an exclusive offer for Green Dragon Briquettes – one box delivered at £11.99, a saving of £3.50 per box.

Green Dragon Farm Grown Fuel is a unique solid fuel made from a co-product of the rapeseed crushing process, a wonderfully green alternative to wood and coal. Green Dragon burns up to three

times as long as its wood equivalent, with up to twice the heat, it's cleaner and a more environmentally friendly choice for homes and businesses alike.

There is no waste and this is achieved by using a unique cyclical process to make sure all the seed is used, all the time. The farms all work to high environmental standards, helping to preserve wildlife habitats and co-operating with other organisations to keep their impact at the absolute minimum.

Green Dragon is British grown, sustainable and produced following the natural crop rotation of a group of farmers

committed to sustainable practice. Green Dragon Farm Grown Fuel is suitable for all solid fuel burning appliances such as boilers, stoves, wood burners and open fires,

and it will keep you cosy all year round.

The briquettes are just perfect for open fires and stoves and they really come into their own when used in wood burning stoves. They burn longer than logs, give off more heat and produce a wonderful, slow rolling cloud of orange flame that's beautiful to watch.

Green Dragon has recently launched a range of nuggets, ideal for open fires – for special introductory offers visit the website www.greendragonfuel.co.uk
